EDUCATION

University of Florida, Gainesville, FL

May 2027

Master of Science, Computer Science

GPA: 4.0/4.0

University of North Florida, Jacksonville, FL

May 2025

Bachelor of Science, Computer Science

Minors in Mathematics and International Business

GPA: 3.99/4.0

Sungkyunkwan University, Seoul, South Korea

Mar 2024 - Jul 2024

Exchange Program, Data Science

GPA: 4.0/4.0

PROJECTS

Multi-Agent Reinforcement Learning for Coordinated Grid Exploration

- Architected custom neural networks in PyTorch for use with the Proximal Policy Optimization (PPO) algorithm, leveraging Ray RLlib to streamline the training process.
- Implemented a modular project structure supporting hand-crafted reward functions, hyperparameter tuning, and easily customizable models, enabling seamless experimentation and ablation study.
- Logged metrics using Tensorboard and Pandas, improving the interpretability of model performance.

AeroAtlas Travel Planner

- Built a full-stack travel itinerary planner using Agile methodologies to coordinate with teammates, delivering an award-winning MVP at the UNF School of Computing Symposium.
- Developed a modern, responsive UI with Next.js, React, TailwindCSS, and ShadCN components.
- Designed and implemented a REST API with FastAPI to integrate multiple external services, optimized with caching to significantly reduce average page load times.

Raspberry Pi Dashboard

- Built a custom dashboard interface for the Raspberry Pi 4B using JavaFX with real-time system metrics, multithreading, terminal access, file manager, a GPIO control panel, and CSS-styled UI.

WORK EXPERIENCE

Avondale United Methodist Church

Aug 2019 – Jun 2025

Web Designer / Webmaster

- Designed, coded, and maintained the church website using HTML, CSS, JavaScript, and PHP.
- Collaborated with trustees and staff to define design and content requirements.
- Maintained weekly bulletins and announcements via SFTP to ensure timely site updates.

River and Post Restaurant

Nov 2020 – July 2021

Busser

- Delivered attentive customer service in a fast-paced environment, ensuring smooth coordination with front-of-house staff.

SKILLS

- **Programming Languages:** Python, Java, C, HTML, CSS, JavaScript, SQL, ASM
- **Frameworks:** PyTorch, Tailwind CSS, Git, Unix CLI, Gymnasium, Scikit-learn

AWARDS/CERTIFICATIONS

- Building Transformer-Based Natural Language Processing (NLP) Applications, *NVIDIA*
- 2nd Place, Fall 2024 UNF NestforAwhile Programming Challenge
- Unix Essential Training, *LinkedIn*
