EDUCATION

University of Florida, Gainesville, FL

May 2027

Master of Science, Computer Science

University of North Florida, Jacksonville, FL

May 2025

Bachelor of Science, Computer Science

Minors in Mathematics and International Business

GPA: 3.99/4.0

Sungkyunkwan University, Seoul, South Korea

Mar 2024 - Jul 2024

Exchange Program, Data Science

GPA: 4.0/4.0

PROJECTS

Multi-Agent Reinforcement Learning for Coordinated Grid Exploration

- Architected custom neural networks in PyTorch for use with the Proximal Policy Optimization (PPO) algorithm, leveraging Ray RLlib to streamline the training process
- Built a modular framework with custom reward functions, hyperparameter tuning, and ablation study support.
- Logged and visualized performance with TensorBoard and Pandas for greater interpretability.
- Achieved ~99% coverage and connectivity with 20–50 robots, 15% higher average coverage than prior work.

AeroAtlas Travel Planner

- Built a full-stack travel itinerary planner using Agile methodologies to coordinate with teammates, delivering an award-winning MVP at the UNF School of Computing Symposium.
- Developed a modern, responsive UI with Next.js, React, TailwindCSS, and ShadCN components.
- Designed and implemented a REST API with FastAPI to integrate multiple external services, optimized with caching to significantly reduce average page load times.

Raspberry Pi Dashboard

- Developed a real-time dashboard for the Raspberry Pi 4B using JavaFX, displaying system metrics with multithreaded data handling.
- Integrated terminal access, file manager, and GPIO controls into a responsive CSS-styled interface.
- Optimized resource management to ensure stability and performance under concurrent processes.

WORK EXPERIENCE

Avondale United Methodist Church

Aug 2019 – Jun 2025

Web Designer / Webmaster

- Designed, coded, and maintained the church website using HTML, CSS, JavaScript, and PHP.
- Collaborated with trustees and staff to define design and content requirements.
- Maintained weekly bulletins and announcements via SFTP to ensure timely site updates.

River and Post Restaurant

Nov 2020 – July 2021

Busser

- Coordinated with front-of-house staff to deliver attentive customer service in a fast-paced environment.

SKILLS

- **Programming Languages:** Python, Java, C, JavaScript, SQL, HTML, CSS, ASM
- **Frameworks & Libraries:** PyTorch, Scikit-learn, Tailwind CSS, Gymnasium, NumPy, Pandas

AWARDS/CERTIFICATIONS

- Building Transformer-Based Natural Language Processing (NLP) Applications, *NVIDIA*
- 2nd Place, Fall 2024 UNF NestforAwhile Programming Challenge
- Unix Essential Training, *LinkedIn*
